**MOBILE ANESTHESIOLOGISTS HOLDINGS APPOINTS
DR. DAVID B. MAYER TO BOARD OF DIRECTORS**

*Prominent Nationally Renown Anesthesiologist and Esurg Corporation Co-Founder to
Establish Medical Advisory Board and also serve in Executive Consulting Role for
America's Leading Office-based and Ambulatory Anesthesia Practice*

Chicago – June 26, 2007 - Mobile Anesthesiologists Holdings, LLC (Mobile) is pleased to announce the appointment of Dr. David B. Mayer to serve as a member of Mobile's Board of Directors. Additionally, Dr Mayer will serve in an executive consulting capacity; working to accomplish, among other things, the development of its Medical Advisory Board, and also help to drive the strategic development of Mobile's procurement and distribution competencies.

Dr. Mayer is currently Associate Professor of Anesthesiology and Director, Cardiothoracic Anesthesiology at the University of Illinois Hospital and Medical Center. In addition, he serves as the Associate Dean for Education and as the Director, Essentials of Clinical Medicine at the University of Illinois Medical School in Chicago.

In 1999, Dr. Mayer co-founded Esurg Corporation a technology-based medical and surgical supply company focused on the alternate site healthcare market. The Seattle-based company continues to operate and thrive today as it continues to serve the needs of the fastest growing segment of healthcare.

In addition to his current academic appointments, he serves on the editorial and advisory boards of multiple national and international journals, associations, and conferences and regularly speaks at research centers, universities and public policy institutes. Additionally he has presented research papers and published widely in international and national journals and conferences in the areas of patient safety and on ambulatory anesthesia clinical and business best practices.

According to Mobile's Founder and CEO David Barinholtz, M.D., a pioneer in the field of office-based anesthesiology, "We are thrilled to have Dr. Mayer on board. His efforts will insure that we continue to avail ourselves of the highest level of clinical and professional resources to further enhance and improve our services. In addition, his strategic counsel in the areas of patient safety, procurement, distribution and overall office-based and ambulatory anesthesia strategy will be invaluable as we continue to expand nationwide."

-more-

Mobile Anesthesiologists, LLC, is the leading provider of office-based and ambulatory anesthesia in the U.S. Mobile's founder, Dr. David Barinholtz, is recognized both as a pioneer in the development of specialized anesthesia methodologies specific to this space as well as an expert on the topic of patient safety in the office-based surgical setting. Mobile's early entrance into the ambulatory and office-based surgery arena, coupled with the expertise of Dr Barinholtz, have led to its phenomenal growth and success.

Since the company's inception in 1996, the demand for the company's services has grown exponentially as a result of the dramatic shift from hospital to office-based and ambulatory surgery. During the past two decades, ambulatory anesthesia has matured and expanded. With ambulatory surgery currently accounting for almost 80% of all surgical procedures performed in the US, it has become the undisputed dominant mode of surgical practice in North America, as well as in many other developed nations. In this context, it is important to appreciate that 20% of all elective surgeries performed in the US in 2002 were conducted in offices. *Indeed, office-based anesthesia is currently the fastest growing segment of anesthesia practice in our country.*

Chicago-based, Mobile Anesthesiologists is America's leading accredited turnkey office-based and ambulatory anesthesia practice. Mobile is committed to providing the safest, highest quality, state-of-the-art anesthesia and recovery services currently available in the office-based setting. The company currently has operations in Chicago, Michigan and Florida is expanding throughout the United States, sharing its operational expertise and proven clinical pathways with top board-certified anesthesiologist partners nationwide. www.zzzmd.com
